**Subject:** Join Us For A South Florida Ag-venture

Good afternoon,

The **South Florida Agricultural Foundation, Inc.**, a non-profit organization founded to increase public awareness of South Florida's agricultural industries – including sugarcane, citrus, sweet corn, rice, celery and other crops – through educational and stewardship opportunities, is sponsoring a congressional staff trip to our area on **February 19-21, 2020**. The purpose of this **Ag-venture** is to give staffers an opportunity to tour South Florida's agricultural industry gaining firsthand knowledge of its impact on Florida and the United States.

The Foundation would like to extend an invitation to you to participate in this trip. We have not yet finalized our itinerary, but have attached one from the last tour for your review. The February schedule may vary somewhat, but will include mostly the same stops. You can also check out our website at [www.soflagfoundation.org](http://www.soflagfoundation.org), where you can see the educational opportunities our past tour participants had.

Tour participants depart from Ronald Reagan National Airport to Palm Beach International Airport where Foundation staff and a chartered bus will meet them. We'll kickoff the tour by traveling west to the Everglades Agricultural Area and there will even be an **AIR BOAT TOUR** on Lake Okeechobee. Other stops during the tour will include citrus groves, sugarcane field operations and mill, and other vegetable planting and harvesting operations. The Foundation will cover the cost of all travel, lodging and meal expenses associated with the trip and will provide all necessary documentation for the Ethics Committee.

Florida is known as a premier tourist destination with its miles of sandy beaches, but few people know of its abundant agricultural interests and its vital role in food production. In the South Florida region, Palm Beach County alone generates nearly one-and-a-half billion dollars in total agricultural sales each year, ranking it among the top ten counties for highest agricultural revenue in the nation. While Florida has three million acres devoted to agriculture, Palm Beach County has more agriculture than any other county with 40% of its land actively farmed. Florida food is exported to 170 different countries to the tune of \$4 billion worth of food products.

We hope you will be able to join the Foundation on this fact-finding trip. We believe it will be a worthwhile experience and that you will gain a better understanding of the Florida agricultural industry and other ag-related issues that you work with on a daily basis.

**Space is limited, and slots will be filled on a first-come, first-served basis.** I know it's early, but we wanted to get the info over before the holidays hit. Let us know if you would like to participate in this exciting **Ag-venture** and we'll put you at the top of our RSVP list. We know many will be out of the office during the holidays and ethics forms are due by **January 20**. Feel free to contact us at 561-315-0481 if you have any questions.

Hope to see you in February!

*Ardis Hammock, President*
